As the COVID-19 global situation continues to evolve rapidly, the Government of Canada is taking a variety of measures at the border as part of its efforts to reduce the spread of COVID-19 in Canada.

ArriveCAN was created as a secure and user-friendly tool to help travellers comply with these border measures. It is available as a mobile app or by signing in online. ArriveCAN allows travellers entering Canada by land, air or marine to submit mandatory information as required by Emergency Orders under the Quarantine Act.

As of November 21, 2020, it is mandatory for all travellers returning or travelling to Canada via air to provide their information digitally through ArriveCAN before they board their flight. Travellers must provide their travel and contact information, quarantine plan and COVID-19 symptom self-assessment. Travellers must be ready to show their ArriveCAN receipt when seeking entry into Canada; a border services officer will verify that they have submitted their information digitally. Travellers who do not submit the required information digitally before boarding their flight could be subject to enforcement action, which can range from verbal warnings to $1,000 fine.

The resources in this toolkit will help you communicate with air travellers about the new mandatory requirements. We encourage you to share these materials with all those planning to travel or return to Canada to ensure their border process is seamless. Your efforts will help reduce the spread of COVID-19 in Canada.
